English

ABOUT ME

Passionate and motivated software developer with academic knowledge in full-stack web and mobile application development. Proficient in core programming languages like Java, HTML, and JavaScript, with hands-on experience from personal and academic projects. Eager to apply my skills in a dynamic IT environment to contribute to innovative solutions and further develop my technical expertise.

PROJECTS

Restaurant Management System

- Web-based system using HTML/CSS, JavaScript, MySQL

Voting Management System

- Built a voting management system using PHP and MySQL, enabling secure elections.

E-COMMERCE ANDROID APP

- Developed a fully functional e-commerce app using Flutter with features like user authentication, product browsing, shopping cart, and a secure payment gateway

E-VAT (Value Added Tax) System

- Web application using Spring Boot, Thymeleaf, and PostgreSQL, reducing manual entry errors.

TECHNICAL SKILLS
